ENVIRONMENTAL EDUCATION

reference sources for development of programs and sites

ENVIRONMENTAL EDUCATION

This Directory is an attempt to provide an extensive list of sources for environmental education assistance. It is by no means exhaustive and should be used as a guide in seeking help in initiating local programs of environmental education awareness.

The forms of assistance include technical aid, monetary grants, community programs, publications, curriculum planning, audio-visual aids and many others.

Most of the Federal agencies and a considerable number of the non-government agencies listed operate regional or local offices. A quick check through the telephone book in your area will probably save valuable time and effort in finding an agency's location.

This Directory consists of four sections:

I – Federal Assistance
(US Government agencies)

II – Local Assistance
(US Department of Health, Education and Welfare funded local projects)

III – Private Assistance
(Trade associations and other organizations)

IV – Miscellaneous Assistance
(Films, books, universities and other directories)

Additional information and assistance may be obtained by contacting the Division of State and Private Assistance, National Park Service, US Department of the Interior, Washington, D.C. 20240.

CODE KEY

The accompanying code specifies which type of assistance the agency actually provides.

SECTION I

FEDERAL ASSISTANCE

This section lists Federal government agencies which provide assistance to communities and individuals interested in environmental education and environmental education oriented projects.

ACTION

806 Connecticut Ave., NW
Washington, DC 20525

PEACE CORPS: Supplies volunteers to environment oriented jobs such as wildlife management, erosion control, soil conservation and forest management.

VISTA: Concerned with the improvement of the physical environment through community involvement. Volunteers are trained at projects with an effort made to include local professionals and technical experts. Emphasis is on short-term projects to insure completion and include open space developments, improvements of health facilities and housing projects.

ATOMIC ENERGY COMMISSION

Germantown, MD 20545

Provides information to public and educational communities on the use of nuclear power. Also holds workshops on water and air quality assessment.

ARMY CORPS OF ENGINEERS

(Contact Regional Offices)

Provides in-service workshops to provide training to determine areas of least damage to ecosystem. Also provides consultation.

CIVIL SERVICE COMMISSION

1900 E. St., NW
Washington, DC 20415

Offers monetary and personnel assistance to state and local agencies desiring to establish environmental education programs through the Intergovernmental Personnel Act.

DEPARTMENT OF AGRICULTURE

Independence bet. 12th & 14th Sts., NW
Washington, DC 20250

COOPERATIVE EXTENSION SERVICE: Conducts ongoing programs in environmental improvement with focus on pollution. Also sponsors regional workshops.

ENVIRONMENTAL THRUST PROGRAM: A cooperative program involving the Soil Conservation Service, Farmers Home Administration, Forest Service, Rural Electrification Administration, Economic Resources Service and the Cooperative Extension Service. The program shows

people how they can do something to improve environmental conditions. Outlines are provided to interested parties and detail how citizens can initiate, carry out and coordinate community-wide programs for environmental awareness.

FARMERS HOME ADMINISTRATION: Prepares handbooks for teachers on environmental education. Offers curriculum guide on improving the quality of the environment.

FOREST SERVICE: Has a nationwide environmental education program involving teacher training, environmental study sites and teacher guides. The main thrust of the program is in the area of teacher preparation and workshops.

SOIL CONSERVATION SERVICE: Provides teacher training through workshops. Stresses the outdoor classroom approach to environmental education and supplies the course materials. The SCS also provides regional assistance through its centers and furnishes technical resource data for the courses. Provides, material for a wide variety of courses including recreation and land use planning.

DEPARTMENT OF COMMERCE

Washington, DC 20410

DIVISION OF TRANSPORTATION & URBAN DESIGN, OFFICE OF COMMUNITY GOALS & STANDARDS: Offers technical assistance for long-range planning under a program called Comprehensive Planner. Also provides information and assistance for Open Space Land applicants.

DEPARTMENT OF THE INTERIOR

C St., between 18th & 19th, NW
Washington, DC 20240

BUREAU OF LAND MANAGEMENT: The Bureau's employees will offer time and assistance to persons needing help in establishing a program. The Bureau is not currently funded for such assistance, however.

BUREAU OF INDIAN AFFAIRS: Offers two environmental education curriculum guides and assistance in setting up a program.

BUREAU OF OUTDOOR RECREATION: Office of Information Services keeps files on status of environmental education movement in and out of government. Administers Recreation Support Program with Labor Department. The RSP provides cities with funds for recreation programs.

BUREAU OF RECLAMATION: The Bureau has hired 13 environmental education specialists to carry out programs for them.

NATIONAL PARK SERVICE: Operates and provides information on three environmental education programs. NEED (National Environmental Education Development) is designed to assist school systems through development of interdisciplinary educational materials which supplement existing school curricula. Teacher guides, student classroom and outdoor materials are available for the program. NESA (National En-

vironmental Study Areas) is a program of environmental study whereby schools use the resources of parks and other "out-classroom" sites in conjunction with an ongoing environmental education curriculum at the school. NEEL (National Environmental Education Landmarks) is designed to identify and preserve nationally significant environmental study areas. The programs are based on a 5-strand approach to teaching and are mutually supporting in their philosophy. The Park Service Office of Environmental Interpretation has worked in conjunction with other agencies to produce supporting guidebooks for the programs. *National Environmental Study Areas: A Guidebook*, explains the philosophy behind the NESA program; *A Guide to Planning and Conducting Environmental Study Area Workshops*, explains how to get a workshop started and what to expect from the group; *Environmental Education/Facility Resources* is a report from Educational Facilities Laboratories and is a listing of facilities designed to be used in conjunction with the programs and sites. NPS also cosponsors with the US National Commission for UNESCO a program called STEP (Students Toward Environmental Participation). It is an autonomous vehicle for environmental education and action operated by and for High School students.

BUREAU OF SPORT FISHERIES & WILDLIFE:

Provides guidance material and lesson plans to environmental education teachers.

DEPARTMENT OF TRANSPORTATION
400 7th St., SW
Washington, DC 20591

National Park Service

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, fish, wildlife, mineral, land, park and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources." The Department works to assure the wisest choice in managing all our resources so each will make its full contribution to a better United States now and in the future.
